The Project

The **Green Games in Tourism and Hospitality** project aims to innovate and support improvements in VET systems and practices for students, vocational teachers and others receiving, providing or participating in vocational training in the tourism and hospitality sector.

As well as the Green Hipster Hotel game, the project has also developed a prominent European bank of resources related to “green” activities in the tourism and hospitality sector and for the acquisition and transfer of similar competencies through digital games.

Green Games in Tourism & Hospitality Project

This project has been funded with support from the European Commission. The content of this game reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

GREEN GAMES IN TOURISM AND HOSPITALITY

Presents...

THE GREEN HIPSTER HOTEL

A FREE MOBILE GAME FOR LEARNING
ENERGY / WATER / FOOD
WASTE IN TOURISM AND HOSPITALITY!

MO' MONEY, MO' ROOMS

Expand your hotel by building, managing and upgrading a huge range of rooms and features, ranging from bedrooms to gardens to bathrooms.

ROOMS TO IMPROVE

Stay good and green by upgrading equipment and training staff while accessing information about how to keep your hotel (and your home) environmentally - friendly!

WELCOME TO THE GREEN HIPSTER HOTEL!

Hipsters! They seem to be everywhere nowadays. But when they're not browsing thrift stores for vintage fedoras or riding their fixies, where do they stay?

Well in the **Green Hipster Hotel** - a brand new, 100% free game for smartphones and tablets - that's now up to you! Build your own vision of a perfect hipster hotel and make your fortunes from your skinny-jeaned guests!

To make your mark, you will be challenged to make sure your hotel stays as eco-friendly as possible. Upgrade your rooms and train your staff to make sure you stay good and green and challenge yourself to learn more about sustainable development and food/ water and energy waste in hotels!

The game has been developed as part of the EU-funded Project "Green Games in Tourism and Hospitality" and is aimed at helping to teach and learn skills and competencies in the areas of food waste, water waste and energy waste management!

STAY GOOD, STAY GREEN

Test your knowledge on food, energy and water waste management to access new rooms and rewards and to get stuff built quicker!

HOW DO YOU BUY...? ...MORE EFFICIENT LIGHTS

MORE FOOD FOR THOUGHT

Order food, organize your menu and serve up the coolest cuisine in your restaurant for hipsters (Remember - you were into kimchi tacos before they were cool!).
